And one day his strife is  
forgotten  
However, we are forgiven*

*Our kin are separated by colour

We are without without love or  
virture.

#### 14. *Bronze Page*

Ian "MyUsernamesMud" White and Eston "silence" Schweickart  
Vocals by Ally Clark

There is a land that I know, it is real and not just make believe  
One where friends will defend one another to the end, and you never  
have to leave

A boy with the love in his heart, 'boldened by the courage in his  
soul  
He will fight for the rights of the fairies and the sprites, a hero  
among trolls

You sitting there watching troll TV, get on up and come with me!  
Adventure lies and soon you will be, watching Fiduspawn!

## 25. *Your Universe* by Marcus Carline

Vocals by Rachel St. Marseille

Piano by Steve Blum

Bass by Nicole Sequeira

Drums by Eric Hagstrom

Cigarette ashes burn red  
but they fall like snow,  
and I hear the wind a callin' my name  
and this world's got to end  
someday soon.

A slick black queen  
in a slick black coat  
her leggings high and her brim  
down low.  
She's beautiful and she knows it.

It's a cold, cold world  
and she's on her own.  
This world is hers and hers alone.  
She's powerful and she knows it.

She's your girl.  
She is your world.  
She is your universe.

I caught your eye.  
You stole my heart.  
I took your arm to show that I care.  
You loathe me so and you love it.

I'm your girl  
I am your world  
I am your universe.

Our love was hot,  
but I was cold.  
You always made me feel so blue.  
But when I said draw  
and you shot,  
it was obvious that you were  
colder.

I'm not unhurt,  
but you lost out.  
When I said draw I just knew that  
you would.  
You'll miss me so when I'm gone.  
I'll miss you so when I'm gone.

Love or hate  
I was your girl  
I was your world  
I was your universe.

## 29. *Temporal Shenanigans* by Rachel Macwhirter

There's no need to justify the meaningless destruction.  
The voices always tell me that it's how I'm meant to function.  
Everything's in order, everything will come in time,  
just as long as I complete the tasks that are mine.

When the time comes that you see the way destiny lies,  
it would be okay if you'd pretend to be surprised.

I see in full clarity what was so muddy before.  
You see a thousand of me and this is what I'm meant for.

I'm going around not in circles but in spirographs.  
It's pretty much this hard to keep just one timeline intact.  
I can see the endings that the realms will not permit.  
I see them over again while building up to this.  
In my current state, it's a bit difficult to sympathise,  
but I know what I'm doing! Don't try to tell me otherwise.

I see in full clarity what was so muddy before.  
You see a thousand of me and this is what we're made for.

From now on I know I'll be more careful where I tread.  
I'm alive and smiling. I'm so tired of being dead.

I see in full clarity what was so muddy before.  
You see I'm far from empty. I'm back to what I live for.  
I see in full clarity what was so muddy before.  
You see I'm far from empty. I'm back to what I live for.
